

Benta Pharma Industries

Flumivir[®]

Oseltamivir

Dear Doctors,
Dear Pharmacists,

June 2009

Benta Pharma Industries (BPI), in its quest to provide the health care community with advanced and affordable health care products, is proud to inform you that its antiviral flu medicine, **FLUMIVIR[®] (Oseltamivir)**, is registered by the Lebanese Ministry of Health and is now available for sale in the pharmacies at the public price of LBP 50,000 for the pack of 10 capsules.

Variant strains of the flu virus have been appearing over the years, including the recent discovery of the H1N1 virus, known as the swine flu virus with growing outbreaks of illness and increasing number of cases reported around the world.

Faced with the imminent threat of the discovery of new cases of the H1N1 virus in Lebanon, **BPI** is ready to help combat this epidemic with the availability of its **FLUMIVIR[®]**.

BPI is a state of the art manufacturing facility certified for Good Manufacturing Practice (GMP) by the Lebanese Ministry of Health and by a European Certifying body represented by Certipharm-France, in addition to the certification of ISO 9001:2000 and ISO EN 13485.

BPI is a leader in developing new and enhanced formulations as well as in improving and manufacturing a wide range of high quality generic medicines, covering cardiovascular, diabetic, urology, central nervous system, anesthesia, oncology, immune-suppressant and biotechnology products.

FLUMIVIR[®] is distributed through Benta Trading s.a.r.l Tel: +961 1 511211
